Webstack - Portfolio Project - Pitch

 Group project

 Portfolio project

Presentation

Weight: 1

Projects(/projects/current)

Project to be done in teams of 4 people (your team: Michael lyke, Cyril Ugwuoke, Radouane Abounouas)

Project QA Review completed on Aug 29, 2024 6:00 AM to Sep 6, 2024 6:00 AMManual QA review was done on Sep 5, 2024 7:47 PM

Evaluation quizzes(/dashboards/my_current_evaluation_quizzes)

In a nutshell...

- Curriculums(/dashboards/my_curriculums)
- Manual QA review: 100.0% mandatory
- Altogether: 100.0%**

- Mandatory: 100.0%
- Concepts(/concepts)
- Optional: no optional tasks

Overall comment:

Great presentation rooms(/dashboards/video_rooms)

Servers(/servers)

Concepts

Sandboxes(/user_containers/current)

For this project, we expect you to look at these concepts:

- Portfolio Project Idea Bank (/concepts/102160)
- Tools(/dashboards/my_tools)
- Portfolio Project Idea Bank (/concepts/102161)
- Portfolio Project Review: Introducing Automated Project Review System (/concepts/107416)
- Portfolio project (/concepts/548)
- Video on demand(/dashboards/videos)

Peers(/users/peers)

Last run!

Yes! the portfolio project of the Webstack specialization will be your last-major-project!
Discord(<https://discord.com/app>)

Make your choice

You will have almost 2 weeks to develop your portfolio project - during this period you will be alone team - to create a fully functional web application.

My Profile(/users/my_profile)

Be before starting any coding, you will need to research and define the project.

This project is important:

- Because it will end your pathway at ALX
- It's summarize the entire Back-end specialization
- The weight of this project is important in your overall score

- You can be as creative as you want
- And the most important: **You should be proud of it** - it will be THE project to show off during interview

My Planning(/planning/me)

Solo or by team?

Projects(/projects/current)

The first question you should ask yourself is: **what I want to do?**

QA Reviews I can make(/corrections/to_review)

Front-end app? Mobile app? Back-end app? API-service? e-commerce website? cloud platform for videos streaming? or better: a learning platform?

Don't be afraid to work in a team - "more resources" means higher prices - but also more soft-skills.

Working solo is also fine - just don't think too big or find quick-win to achieve your project.

No idea?

Curriculums(/dashboards/my_curriculums)

Be creative doesn't mean "create a web application that will make the world a better place" - no - it means: do what you really want: it can be applying concept your learn during the curriculum - it can be exploring a new technology (Go, Rails, etc.) - or make a clone of an existing platform (I was not joking about the learning platform or video streaming...)

Conferencing rooms(/dashboards/video_rooms)

Also, a web application doesn't only mean "Website", it can also be just an API.

Servers(/servers)

Steps of this portfolio project

To end the portfolio, the portfolio project is split in 3 parts:

- The pitch (this project)
- The development

Tools(/dashboards/my_tools)

More Info

Manual QA Review

Review and approval for your portfolio project must be done by a peer.

- **The team will record a pitch and share the link to the recording in the below task 0**

My Planning(/planning/me)

Tasks

Projects(/projects/current)

0. Pitch on your idea make(/corrections/to_review)

mandatory

Score: 100.0% (Checks completed: 100.0%)
Evaluation quizzes(/dashboards/my_current_evaluation_quizzes)

As mentioned in the beginning of this project, you have some questions to ask yourself:

- Solo or team?
- What do I want to build?
- How do I want to build it?

- Is it possible to build it in less than 2 weeks?
- Do I like what I'm doing?

When you know these answers, you will have to prepare a pitch:

- Conference rooms(/dashboards/video_rooms)
- Max 10min of pitch (please repeat to not go over)
- Google slide presentation with:

- Name of the project
- List of team members
- Description of the project

- Learning objectives
- Technologies used
- Third services used if applicable

- Tools/Challenges already identified
- Schedule of work (by using Trello (/rltoken/T8mJBmiyDQV3pUBGRAHPkA) or Kanban board (/rltoken/w_T3skcYROD3tCTBMbIEvg) or other) - don't forget that you have less than 4

- Mock-ups if applicable

- Video Recording of one or more team members presenting the pitch (using the Google Slide presentation)

Please post your slides and the recording to your web-stack portfolio pitch here.

Let's do it! 🍀

Note: Discord(<https://discord.com/app>)

If you are multiple people in your team, decide who is going to do the review.

Go to slack channel #cohort_X_review (your cohort) and look for "Looking for review for webstack portfolio pitch" that has not been replied to. Once you reply to this message you will become each others reviewers. Start a DM with one another. Share the corection link in that DM and review each other.

In case you have not found "Looking for review for webstack portfolio pitch" - then start a new thread with "Looking for review for webstack portfolio pitch" and await a new team to find you.

Happy reviewing!
